

Kick-Off Event

FLY HIGH with The Central Jersey Garrett A. Morgan Education Collaborative

“A year-long initiative to ignite a passion for science, technology, engineering and math (STEM)”

This event is **FREE** and open to the public

Saturday, November 13th, 2010

10 AM—12 Noon in the Hunterdon Central HS Auditorium

1 PM—3 PM at the “Living Laboratory” - Alexandria Field Airport

(weather permitting)

The focus is on K-12 students and their parents

Meet, learn, and question role-models in STEM with a particular interest in transportation and future possibilities in the general fields of aviation/space.

Learn first-hand how you can become involved in the many programs included in the grant: leadership training, aviation/science club, airport engineering orientations, early-college education credits, scholarships for flight lessons, ground school and aviation summer camps, internships, aviation science courses and even building an experimental aircraft.
